MEETING MINUTES

A meeting was held on 9/02/2021 in Room no.-C305, 2nd floor, NHM building, Swasthya Bhawan, Jaipur in reference to letter no.F.1008(146)/AB-MGRSBY/2020-21/267; dated:8/02/2021 under the chairmanship of Joint Chief Executive Officer, RSHAA, Jaipur, Rajasthan.

Following members were present during the meeting:

• DR. RAJKUMAR YADAV, CTVS	Member
• DR. RAJENDRA BAGREE, General Surgery	Member
• DR. SHALINI RATHORE, Obstetrics & Gynecology	Member
• DR. CHANDRABHAN MEENA, CARDIOLOGY	Member
• DR. MAHESH BANSAL, Orthopedic Surgery	Member
• DR. SURESH GAUR, NODAL OFFICER	Member
• DR. PRASHANT GUPTA, Urology	Member
• Dr. REETESH PANDEY, MO RSHAA	Member
• DR. MUKESH JANGID, MO RSHAA	Member
• Mr. BUDDHI VARDHAN AZAD, PO RSHAA	Member

A detailed discussion was done regarding upcoming issues pertaining to MDP & related to the software in new phase of AB-MGRSBY launched on 30/01/2021, in which following decisions were taken.

- 1.) In all the surgical or procedural packages where intra operative photos of operation site have been made mandatory in the new phase of scheme as per MDP (minimum document protocol) issued by NHA, it was decided instead of uploading intra operative photos for such packages where the treating doctor feels that taking & uploading such photos will not only be embarrassing but also lowering the self-esteem of the patient/beneficiary, a pre procedure photo of the beneficiary with the treating doctor & his/her team in procedure room / operation theatre of the empanelled facility will be considered equivalent to the former. Thus, it will not only lead to fulfilment of criteria's of MDP but also serve the purpose of confirmation of beneficiary identity undergoing procedure/surgery & strengthen the sole purpose of fraud mitigation.
- 2.) In all medicolegal cases uploading a copy of FIR / MLC (first investigation report / medicolegal case) has been made mandatory as per MDP. However, it was brought to the notice of RSHAA that in maximum medicolegal cases FIR of the beneficiary is already done at his/her primary hospital where he/she received first aid and then got referred to the higher center which are government medical colleges/hospitals for further management. In all such cases where treatment is being done at government hospitals, relaxation will be done regarding the same & so it will be optional for all empanelled hospitals in government sector to upload either a copy of FIR or MLC in such medicolegal cases to ensure smooth delivery of emergency health services to the beneficiaries under the scheme.

3.) In all surgical / procedural packages where implants are being used, it has been made mandatory as per MDP of scheme to upload a copy of invoice of implant/ bar code sticker which was used in that particular package for treating the beneficiary. However, it was brought to the notice of RSHAA that in government medical colleges/hospitals purchase of implants used during various surgeries/procedures is done at mass level mostly by RMRS of the concerned institution. As a result, a common invoice shall be there for the same and hence uploading a copy of individual implant invoice will be practically impossible in case of each beneficiary being treated under the scheme. Therefore, it was decided that for all government medical colleges/hospitals it will be optional to either upload a copy of invoice or bar code sticker so as to ease the working at government institutions & help them to serve the beneficiaries further.
